

# A Message to Parents

If your child is a returning camper, please note our enrollment procedures have changed and are highlighted below. If you are new to Project Oceanology Summer Camp, this message is a good place to start! Please take the time to read our policies and procedures outlined in the “Camp FAQ’s” section so you are informed and prepared for the application process.

## What’s New:

- Camp weeks are based on age at the start of camp rather than the grade they will be entering in the fall
- Our Camp Enrollment process looks like this:

1

### **Review guidelines and medical forms**

Parents review the guidelines we provide to help determine if Project O summer camp is a good fit for your child.

2

### **Apply to Camp on Active**

Complete and submit the online camp application through the Active Network system. A 10% deposit or full payment is required.

3

### **Complete and submit required forms**

Upload the required health form and all other applicable forms to complete your application. Application will not be reviewed until forms are submitted. Forms are due immediately.

4

### **Wait for confirmation**

Project Oceanology will review the application and notify you if:

- The application is pending because additional information is needed
- Your child is enrolled in camp

## The importance of camp forms:

Thank you for understanding that we must receive the required forms before your child can be officially enrolled in camp. As a licensed and inspected youth camp, all forms must be reviewed for accuracy and approved before we can commit to your child’s participation in camp. Please be sure all required fields have been completed and signed by parent/guardian and physician.
